Mr. Clyde Smith
Technical Manager
Fluid-o-Tech International
161 Atwater Street
Plantsville, CT 06479

Fax No. 860-620-0193

Dear Clyde,

After further review of our independent lab reports, supplier and international Bottler experiences, the Fluid-o-Tech rotary vane pump is approved for sales to the Pepsi-Cola system for use in carbonators.

This approval is based upon the current pump design and plant(s) of manufacture. Should the design or manufacturing location(s) change, the unit will need to be reassessed by my office to continue approval. Should field performance differ greatly from our lab results, Pepsi reserves the right to withdraw this approval.

Please reach me or Nick Guarino with any questions.

Sincerely,

A handwritten signature in cursive script, appearing to read "Arthur Schick".

Arthur Schick
Group Manager, Merchandising Equipment
