PRODUCT**

Francesco Andreis  
Fluid-O-Tech  
Via Leonardo Da Vinci 40  
20094 - Corsico (Milano)  
Italy

Dear Francesco Andreis

**RE: USE OF WATER REGULATIONS ADVISORY SCHEME WRAS APPROVED LOGO**

All manufacturers and factors with products approved by WRAS may use the scheme's approved logo.

Whilst this is not mandatory we would encourage that wherever practicable all WRAS approved products, including their associated packaging and literature, are suitably marked with the WRAS logo.

The WRAS logo artwork is available on request.

Should you require any further information regarding this matter please do not hesitate to contact me.

Yours sincerely

Jason Furnival  
**Secretary, Product and Assessment Group**

Dear Francesco Andreis

## PUMPS

1. Samples of the fittings or units described below have been subjected to relevant tests and examinations contained in the "Regulators' specifications", and after considering the test reports the Technical Committee's Product and Assessment Group (PAG) of the Water Regulations Advisory Scheme (WRAS or "the Scheme") finds that the fittings or units so described comply with, and their use when correctly installed, does not contravene the requirements of The Water Supply (Water Fittings) Regulations 1999, The Water Byelaws 2004 Scotland, and The Water Regulations (Northern Ireland) 1991.

Wholesome Water Use

IRN R001

Tradename:

Range of positive displacement potable water pumps, with either brass or stainless steel bodies, NBR 'O' rings and nylon washers. Some models also incorporate a built in bypass valve. Maximum working pressure 18.0 bar.

Size: 3/8" BSP female x 3/8" BSP female or  
1/2" BSP female x 1/2" BSP female.

Model: 20 series – TW200 – TW201, TW200 inox – TW211.  
22 series – PW400 – PW401 and PW401x, PW400 inox – PW411  
and PW411x.  
24 series – CW200 – CW204.  
26 series – MW200 – MW204, MW200 inox – MW214.  
28 series – PW1000 – PW1001, PW1000 inox – PW1011.  
33 series TH1000W – TW1001, TH1000W inox – TW1011.

---

Marking: Fluid-o-Tech logo, direction of flow arrows cast onto body.  
Fluid-o-Tech logo, model number, product information printed on adhesive label on body.  
Fluid-o-Tech logo, company information printed on adhesive label on cap.  
Serial number etched into body.

Manufacturer: Fluid-o-Tech

2. Installation Requirements & Notes are set out on Page 3.
3. Fittings or units (and any non-metallic components contained within them) are re-assessed and, where necessary, retested every 5 years. You will be advised when your product is due for re-assessment. The extent of any retesting required for a product will be at the discretion of the Technical Manager.
4. **Acceptance for listing entitles you to identify your product with the Scheme's "WRAS" Mark. The use of the Mark will make the identification easier of the approved products by Water Undertakers.** Copies of the 'Mark' are available on request for the purposes of producing artwork.
5. Manufacturers or applicants may only quote in their sales literature, terms used in this letter when indicating the decision of the Group in respect to their fittings or units, namely that the **Product and Assessment Group of the Scheme finds that the use of these fittings or units, when correctly installed, will not contravene the requirements of The Water Supply (Water Fittings) Regulations 1999, The Water Byelaws 2004 Scotland or The Water Regulations (Northern Ireland) 1991 and that a reference to the fittings or units will be included in the Scheme's Water Fittings and Materials Directory:** this may be abbreviated to "Water Regulations Advisory Scheme - Approved Product" or "WRAS - Approved Product".
6. Since the incorrect installation of water fittings could result in contravention of the Regulations or Byelaws requirements, **the attention of your customers should be drawn to any Installation Requirements for Regulations or Byelaws compliances set out on Page 3.**
7. Would you please supply the Scheme with a copy of any of your company's literature which may or will make reference to the Scheme's decisions about the products and/or quotes any of the installation requirements.
8. A condition of listing is that **no modification to the fittings or units described above shall be made without first notifying the Scheme** and submitting to the Scheme details of the modification and, if so required, samples of the fittings or units as so modified for consideration by the Scheme's Product and Assessment Group. Failure to comply with this condition may result in the removal from the Water Fittings and Materials Directory of the entry relating to the fittings or units in question.

9. Your products are required to be replicas of the samples described above, and the right is reserved to carry out quality surveillance inspections of your production arrangements, reasonable written notice of which will be given.
10. Please note that the use of the items described in any particular area of supply is at the discretion of the local Water Undertaking.
11. Manufacturers or factors having appliances or units referred to in the Scheme's Directory which incorporate individually approved components and materials are asked to ensure that such components and materials continue to be approved and/or listed in the Directory, during the current period of approval of their appliance. This may require modifications to approved appliances to ensure their retention in the Scheme's Directory. The Scheme must be informed of any such modifications, (see paragraph 8).
12. You are asked to verify the details of your product as set out in Paragraph 1 and advise us of any discrepancies.

Yours sincerely

Jason Furnival  
Secretary, Product and Assessment Group

#### **INSTALLATION REQUIREMENTS & NOTES**

You are advised to draw customers' attention to the installation requirements and notes set out below which must be followed to ensure that the fittings described above are installed in accordance with the requirements of the Regulations and Byelaws:
